

# KN95 MASKS

Protective PPE reusable face masks for filtering particulate, viruses, and microbes. Filtrates 95% of airborne particles greater than 0.3 micron. Not resistant to oil. 5-ply design with polypropylene as the main material, without any toxin irritation, stimulant or glass fiber. Certified and approved by FDA, CE and Niosh.

## More Features:

- The tip-shaped hanging ear design can prevent this dust-proof mask from slipping
- Designed for comfortable protection.
- Lightweight, humidity-resistant and latex-free
- The elastic fabric completely fits the face, reusable with no peculiar smell.
- The silicone adjustable nose clip is free to adjust providing user-defined sealing and preventing glasses from fogging.
- Suitable for different face shapes of men and women.
